

## **Application Instructions for Restore**

1. Vacuum the surface to remove any visible dirt
2. Use a mild cleaner to clean the surface.

**TIP: Before applying ceramic coating, test it on a small surface to avoid discoloration.**

3. Gently mix the Ceramic Coating bottle and apply 20 drops on the applicator pad and cover a small area. Work in cross-hatch pattern. Spread the product with your applicator pad and ensure there are no streak marks
4. Wait 30 seconds and remove excess residue with a microfiber cloth
5. Apply just one layer and allow it to dry for at least 6 hours
