ABOUT POWERSHIELD

Introducing a groundbreaking professional grade ceramic spray, power packed with nano ceramic technology, and formulated by the manufacturers of the world-class ceramic coatings. Kovalent Coatings PowerShield is a professional grade, user-friendly, spray and wipe coating. Derived from Prolong's winning formula, PowerShield is based on refined Silica nanotechnology and Silicon Carbide.

Its molecular structure forms a temporary sacrificial layer on the surface with increased resistance to ultraviolet rays and grime. Additionally, the ceramic spray intensifies gloss and fosters hyper-slickness that instantly gives your vehicle a showroom look.

Use this product regularly in between washes for a quick detailing experience, the spray will form a glossy layer of protection that repels water and grime while resisting UV rays. PowerShield is a revolutionary step for every car enthusiast that wishes to enjoy durable protection and gloss while keeping the matters in their own hands.

BUILT TO LAST

The easy spray formula forms a protective layer of Silica nanoparticles on the vehicle surface that instantly provides an exceptional gloss and hydrophobic energy to it.

BETTER THAN WAX OR SEALANT

PowerShield Professional Grade Spray is a premium choice among wax and sealant, the spray's formula is a derivation from Kovalent Coatings' Prolong due to which the professional grade spray holds strength similar to ceramic coating.

REJUVENATE THE SHOWROOM LOOK

PowerShield offers an in-depth gloss and glass-like finish to the vehicle surface. It facilitates quick maintenance and contributes to sustain the showroom look of the vehicle.

SUPREME HYDROPHOBICITY

It produces an astonishing hydrophobic energy that encapsulates water-based grime via beading effect and facilitates quick cleaning.

SUITABLE FOR CAR ENTHUSIASTS

PowerShield is a proactive solution for all the maintenance troubles of car enthusiasts who are looking for a credible premium ceramic spray.
