Australian Made

Ceramic Coatings for Professional Detailers

WHO ARE WE?

Manufacturers of exceptional ceramic coatings equipped with in-house manufacturing unit. With state-of-the-art technology and rigorous quality control protocols in place, our advanced facility enables us to manufacture a remarkable quantity of ceramic coating while upholding the industry's most stringent standards. The manufacturing unit is driven by a team of skilled and experienced professionals who are passionate about pushing the boundaries of excellence. With their expertise, they ensure that every batch of ceramic coating is meticulously crafted, emphasizing optimal performance, durability, and long-lasting protection.

THE KOVALENT CLUB

Our commitment to excellence is evident in our rigorous testing procedures. By subjecting our products to a range of conditions and scenarios, we can guarantee optimal durability, gloss, and hydrophobicity. We also conduct outdoor tests to simulate various environmental factors that your client's vehicles may encounter. From extreme heat to heavy rain, we push the boundaries to ensure that our ceramic coatings excel in every situation.

**Exclusively dedicated
to professional
detailers who
demand the best.**

**OUR FLEET TO
MATCH YOUR
FLEET!**

**EXPERIENCE
TRUE
QUALITY**

Trusted by Elite Detailers across 10 countries,
our ceramic coatings exceed expectations.

Our Vision

**We aspire to elevate the craft of
professional detailing by:**

- 01 Pushing Boundaries:**
We relentlessly strive to create superior formulas, aiming to craft the ultimate elixir for vehicles.
- 02 Closing the Price-Performance Gap:**
We maintain competitive pricing, to ensure professional detailers have unhindered access to exceptional ceramic coatings.
- 03 Tailored Support and Training:**
We provide bespoke services designed exclusively for professional detailers, offering comprehensive 360° support and training.
- 04 A Welcoming Safe Haven:**
The Kovalent Club serves as a secure haven for professional detailers. It fosters a sense of belonging, by actively addressing feedback.

THE KOVALENT DIFFERENCE

Superior Formulation

Our coatings are meticulously crafted with an exceptional formulation, delivering unparalleled durability, adhesion, and resistance. From heat and UV rays to corrosion, oxidation, bird droppings, chemicals, and other environmental factors, our coatings stand strong against it all.

24/7 Support

We understand that challenges can arise, and we're committed to being there for you whenever you need us. From our dedicated executive team to your local representative, our unwavering support extends beyond application guidance to comprehensive customer assistance.

Rigorous Testing

Our commitment to excellence drives us to subject each product to rigorous testing before it reaches the market. From enduring the depths of the ocean to withstanding high UV and harsh conditions of Australia, our coatings undergo scrutiny by a panel of elite detailers spread across 10 countries. The result? Uncompromising performance that exceeds expectations.

Competitive Price

Experience professional - grade ceramic coatings at a fraction of the cost. By manufacturing in-house, we cut out unnecessary expenses, allowing us to offer you top-quality coatings at affordable prices. All our products are proudly made in Australia and distributed worldwide, bringing the best of ceramic protection to your doorstep.

REVIVE

An Elixir For **Watercrafts**

SUITABLE FOR

- ✓ Marine Gel coat
- ✓ RVs
- ✓ Painted Surface
- ✓ Aluminium
- ✓ Clear Coat
- ✓ Top Coat

What is **Revive**

Revive is our flagship ceramic coating designed especially for the marine industry. Advanced nanotechnology, premium raw materials and years of testing has led to the first of its kind, revolutionary MARINE grade ceramic coating. Revive is specially designed for the marine industry and keeping the challenges faced by boat owners at the forefront of it all.

GRAPHENE

Revolutionize Vehicle Protection with Graphene Coating

SUITABLE FOR

- ✓ Automotive Painted Surface
- ✓ Clear Coat
- ✓ Alloy Wheels

What is Graphene

Graphene, a material renowned for its incredible strength and durability, takes center stage in our flagship ceramic coating, tailor-made for the automotive elite. Harnessing the extraordinary strength of Graphene, one of the most durable materials ever discovered, we've engineered a formula that combines the highest-grade Silicon Dioxide with Graphene reduced oxide and Silicon Carbide, forging an unbeatable shield.

PROLONG

Automotive Ceramic Coating Breakthrough

SUITABLE FOR

- ✓ Automotive Painted Surface
- ✓ Alloy Wheels
- ✓ Clear Coat

What is Prolong

Prolong is our most popular, cost effective and go-to ceramic coating trusted by professional detailers. Formulated with high content of Silica Nanoparticles and Silicon Carbide to provide protection against environmental contaminants and leaves a deep glossy surface. To extract optimum performance, the secret to Prolong are the revolutionary 5nm – 20nm Silica Nanoparticles that form a thick layer of coating which cannot be easily broken by UV rays, bird droppings and chemicals.

PROLONG LIGHT

Daily Driver's
Delight

SUITABLE FOR

- ✓ Automotive Painted Surface
- ✓ Clear Coat
- ✓ Alloy Wheels

What is Prolong Light

Introducing Prolong Light, the automotive industry's go-to professional-grade, single-layer ceramic coating. Crafted to deliver up to 85% of the strength of our renowned Prolong coating, it's the smart choice for daily drivers seeking up to 2 years of reliable protection while trimming maintenance costs. Unlike conventional wax or sealants, Prolong Light forges a semi-permanent bond with your vehicle's paint, offering robust defense against the relentless assault of environmental contaminants.

RESTORE

Rejuvenate Your Interiors

SUITABLE FOR

- ✓ Leather
- ✓ Vinyl
- ✓ Plastics
- ✓ Trims
- ✓ Marine Leather & Vinyl
- ✓ Leather Chairs & Lounges

What is Restore

Restore, the solvent-based ceramic coating meticulously engineered for Leather, Vinyl, and Plastic surfaces. With a gentle and inviting scent, it sets itself apart from coatings with strong chemical odours. As it glides onto surfaces, it bestows a natural matte finish, elevating the elegance of your vehicle's interior. Its hydrophobic prowess ensures your vehicle remains impervious to spills and stains, while UV-resistant additives fend off the sun's harmful effects and halt bacterial growth. Once fully cured, Restore transforms into an unyielding shield, exhibiting remarkable abrasion resistance, withstanding the daily rigors of wear and tear.

GLASS

Uncompromised Clarity

SUITABLE FOR

- ✓ Automotive Glass
- ✓ Marine Glass
- ✓ Shower Screens
- ✓ Commercial Glass
- ✓ Solar Panels

What is Glass

Our Glass coating, infused with super-active Silica nanoparticles, forges an unbreakable bond with your vehicle's glass. This hydrophobic marvel ensures that water gracefully rolls off, enhancing visibility, especially in wet conditions. Exceptional in durability and abrasion resistance, it stands strong even in the face of relentless wiper use on your windscreen. Experience the world with pristine clarity through glass that remains unaffected by the elements, thanks to our revolutionary Glass coating.

MATTE

Preserve the **Perfect Matte** Aesthetic

SUITABLE FOR

- ✓ Matte Painted Surface
- ✓ Matte Paint
- ✓ Matte PPF
- ✓ Matte Wraps

What is **Matte**

Our Matte coating embodies a groundbreaking fusion of 5nm to 20nm Silica nanoparticles and a Silicon Carbide matrix, setting a new benchmark for scratch, oxidation, and UV resistance. It outshines all competitors, ensuring unrivaled protection. Derived from our acclaimed Prolong formula, Matte Paint ceramic coating sheds the gloss additives while faithfully preserving the original matte finish. Your vehicle remains safeguarded against the ravages of weathering agents, showcasing its matte elegance with unmatched resilience.

FABRIC

Defend Your **Textiles**

SUITABLE FOR

- ✓ Fabric Car Seat
- ✓ Suede Shoes & Bags
- ✓ Fabric Chairs & Lounges

What is **Fabric**

Our Fabric Coating is the ultimate solution for a wide range of textile and fabric materials. Its user-friendly application process ensures effortless protection, creating a hydrophobic shield atop the surface. This flexible formulation not only preserves the natural breathability of fabrics but also boasts liquid-repelling properties. But that's not all – it features cutting-edge anti-bacterial technology, ensuring not only longevity but also cleanliness.

POWERSHIELD

DIY Professional Grade Ceramic Spray

SUITABLE FOR

- ✓ Automotive Painted Surface
- ✓ Clear Coat
- ✓ Alloy Wheels
- ✓ Gelcoat
- ✓ RVs

What is Powershield

PowerShield, a revolutionary professional-grade ceramic spray packed with nano ceramic technology. Developed by world-class ceramic coating manufacturers at Kovalent Coatings, PowerShield is your user-friendly, spray-and-wipe solution. Derived from Prolong's proven formula, it harnesses refined Silica nanotechnology and Silicon Carbide. Its molecular structure creates a temporary sacrificial layer, bolstering resistance against UV rays and grime. This ceramic spray elevates gloss, bestowing a showroom-quality finish on your vehicle. It's a game-changer for car enthusiasts seeking lasting protection and a radiant shine, all within their control.
